## News From Your TOWN HALL

The need of a Building Code was never more clearly indicated than with an incident discussed at the meeting of the Town Papers Wednesday night—housing.

An application for construction of four prefabricated buildings was made and granted, because the specifications given on the application accorded with practice okayed by the City in previous permits.

When the houses arrived their construction did not conform to the permit, and a host of nearby property owners entered a husky petition against the proposed buildings. Search discloses that there is no building code for the City, and the only legal disability to crowding a host of small temporary houses in a first class residential area is the zoning ordinance. If the zoning ordinance doesn't protect your property, there's no code that can be enforced.

Incidentally, a City Manager would have time to study and suggest to the City Fathers an appropriate one, and myriads of other business of the City could be attended to where the Commissioners haven't the time to give to details.

Let's have a City Manager, and let one of his first jobs be to get an appropriate building code for consideration of the Commission.

## Property Owners Protest Against A Building Project

A delegation of property owner citizens from off in the Holloway subdivision three sections, appeared before the City Commissioners Wednesday night to protest against a building project which had been started by the Borchardt Company, in the way of erecting a proposed colony of low priced prefabricated houses.

The spokesman for the protesters stated that they were opposed to that type of house going up in that subdivision, because they had either erected or had plans to do so, a better class of dwelling on lots which they owned, and to permit prefabricated houses of the size and type proposed, would be a decided detriment to their own property.

As city permission had been given in the way of a building permit to the Borchardt company for the erection of four units on its lands, the new development placed the board in a ticklish position. The board decided to hold up a decision, awaiting a conference action, before rescinding the permit or refusing to allow the construction by the Borchardt company.

The City Commission is aware that there are no "dark spots" on the streets and alleys of the city, which should be lighted up, so had requested P. P. DeMoya of the Florida Power and Light company, to appear for a conference on the light question. Pete is nearly always able to solve such illumination problems and will work out a lighting system.

## Modern Farm Machines Used Extensively In Vegetable Farming

Down here in the south, just south of the great Lake Okechobee, is a region of a million acres of rich mud land, which has been developed into a most productive winter vegetable area, second to none in the land, and with soil as rich as that of the Nile valley in Egypt, when the proper fertilization is added to the soil.

Vegetable farming in the Glades is carried on an extent equal to the grain farms of the central and northwestern states, some of the ranches containing several thousands of acres.

The active season of farming in the Glades comes in the Continued on page 6

## Glades Commissioner District Will Remain Unchanged

Rather than go into court to defend a lack of action on the matter of a division of the county in commissioner districts on a more equitable distribution of population, the Board of County Commissioners at a special meeting last Friday, by a four to one vote, effected such a division. Commissioner Lytal did not concur in the action of the board.

District No. 5, or the Glades district, was not changed in territorial contour, as Commissioner Hardin requested that the district remain as at present.

The past year has seen the Glades district given more consideration by the board than for many years past, and as a result, a new drag line, plows, scrapers, mowing machine, four trucks and a bulldozer are now, or soon will be, working on district projects.

## Scattering Frost Nipped Vegetables In Glades Region

Cold weather has been with us the forepart of the week, and on Wednesday morning scattered frost of more or less intensity was reported, but extent of damage to growing crops has not been surveyed. In low lands the beans suffered considerable damage. Temperature at the Experimental Station dropped to 39 degrees and in Belle Glade and Palokoe section to 36.

The labor situation, which has been satisfactory for the past few weeks, is again threatening a bit, and there is none too much labor available for field work. Some 75 of the Bahamian laborers did not sign up for new work, and will soon be sent back home. Farm Labor authorities state that there will be no more of this type of labor available to recruit the depleted ranks.

H. L. Speer, who has been in charge of the Farm Extension Bureau for the government, on January 1 assumed his new position as assistant County Farm Agent for Palm Beach county, as assistant to "Red" Mantle. Most of his work will continue to be performed in the Glades area, with which he is so conversant and familiar. He will serve the government in his line of work, and will retain his office in the same old location. Jack Royal takes over office duties for the government as an assistant to Prof. Speer.

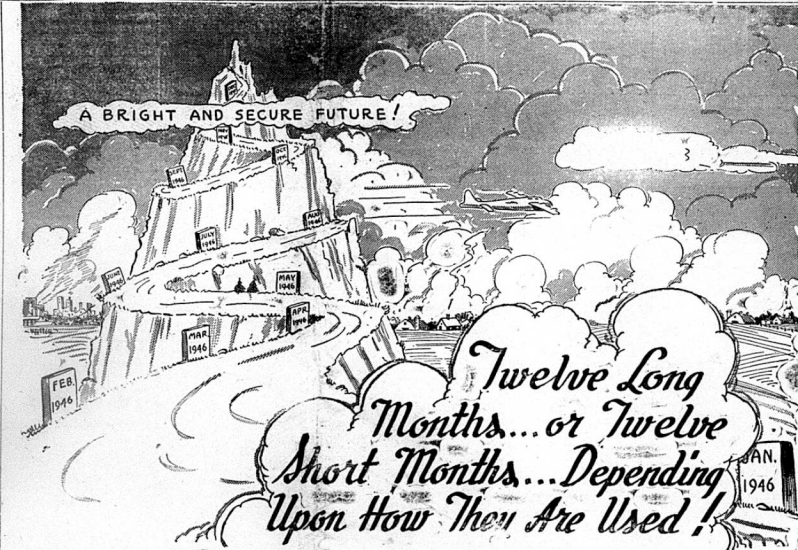

Director Wilson of the State Market system, that the seed, labor and fertilizer scarcity is on the wane, and that there will be soon sufficient to meet the demands. That Florida again bids to exceed its citrus and farm product record of its banner year. While some commodities will show decreased plantings, the overall picture will be record breaking. Prices on farm products have been uniformly good throughout the state, and while some growers may not have earnings as large as last year, their recompense for efforts will not be bad at all.

Shipments by rail and truck have been off during the holiday week, and still represent a goodly volume.

|          | North | East | South | West | Total |

## City Deserts Day New Years Day

New Years day was quietly celebrated in Belle Glade, mostly due to the fact that a good number of its citizens were down at Bardin stadium at Miami, watching the Holy Cross-Miami University football classic. Most all of the spectators came back knowing they had seen one of the best games ever staged at the stadium. The pageantry alone was worth the price of admission.

## Fungicides Help Control Celery Blight

For use in controlling celery blight, a number of new organic fungicides have been found, especially suitable. Dr. G. R. Townsend, plant pathologist at the Everglades Experiment Station, are proving far superior to copper fungicides.

Dithane, ferimate, zerlate, spenon, and phylon are among the organic compounds which have produced good results in celery spraying tests. Most are being used on other crops as well.

Dithane has had good results in use on potato crops in south Florida. Dithane is (Continued on page 6)

## Hudson's Timely Run Worth \$100,000 Per Second to Orange Bowl

Alabama has a million dollar headache—because an Atlanta reporter dubbed it that in comparison to a team Bama took over to Atlanta.

The University of Miami has more claim to a million dollar loss in the second run by a Miami boy named Hudson, for had he not made that run, more than 75 per cent of the effect of the New Years game would have been left out. A tie would have left the impression that the spectators had seen a game lacking the usual thrills of the Orange Bowl. The prestige of the Orange Bowl would have been damaged to an extent expressed in governmental budgetary matters, and Miami U. would have been given credit for having too enthusiastic backers.

As it is, the Bowl Committee can say the usual Orange Bowl pyrotechnics were furnished—except Hollywood wouldn't imagine a better service. Miami U. is on the map of big time college football and the former Edison High football stars more publicity than the combined Miami papers have given him.

He still made a million dollar run for my club, saved the Committee, the Bowl, and the joy of a deserving coach and the president of a committee of learning in tropical Florida.

## C. of C. Meeting

A call has been sent out by Mrs. Alberta Potter, secretary of the Chamber of Commerce, for a business session of that body at the Conservancy office next Monday night at 8 o'clock. President Campbell is especially anxious that all directors be present, ready to file written or oral reports of their work for the year 1945, and suggestions for activities during the year of 1946.

## Red Imes Is Home

Red Imes, who formerly operated a dusting business out of the airport, has arrived back in Belle Glade, and is planning on resuming his former occupation, as soon as he can get his license renewed and equipment. He put in near five years, as a plane operator for Air Transport Auxiliary, operating mostly in the British territory. He comes home well and hearty, and reports no serious accidents during his long period of service, and while he saw much territory, none looks so good to him as the Glades.

## Sent To Prison For Theft

Sam Anderson, colored, found that Mattie Elnor, an aged Belle Glade woman had \$1000 in currency in her room. He slick fingers got it. The police got him, and part of the money. The jury decided Sam was guilty and the court has fixed his permanent address at Raiford for the next five years.

## Honor College Students

Student services were held at Community Methodist Church last Sunday morning, and a large number of the college folk were present. The sermon of the occasion was delivered by Mr. Rev. Walter Cress, a theological student at Emory University at Atlanta, Ga. On Monday night a watch night service was held, conducted by the Young People's society, which was well attended.

Similar watch night services were conducted at the First and Rev. Walter Towner, of Baptist Church Monday night.

## NEWS OF OUR SERVICE MEN

VICK RIEDEL After receiving his discharge from the army on Christmas day, Vick Riedel, son of Mr. and Mrs. C. E. Riedel, has returned to Belle Glade to make his home. He has served three years, two of which were spent in the south Pacific in the Philippines with a field artillery unit. He held the rank of sergeant and has the Philippine Liberation ribbon with two stars and the Asiatic-Pacific ribbon with two stars, and also the Asiatic Defense and Victory ribbons. Riedel has resumed his former position with Doe Crews at the Glades Chevrolet Company.

## TOMMIE KELLEY

"Just thought I would drop a few lines. I have been reading the Herald and saw some of the boys wrote home about being in Japan. I was in the task group that swept the mines in Tokyo Bay and Sagamiwan before the fleet went in. The task group was made up of destroyer

## Lions Club Makes Many Donations During Past Year

Spotswood Burr was the weekly program chairman for the Lions club, and in the face of a disappointing record of a task it upon himself to digress on "How We Build a Better Lion's Club in Belle Glade." The speaker made his remarks plain and to the point, and his remarks were genuinely appreciated by his fellow Lions.

Going over the books of the club for 1945, he stated that the club had been a record of achievement, more on the physical side than on the cultural, and urged that more be done in the latter line during the present year.

He cited the following activities of the past year: Gave the following money donations: (Continued On Page Five)

## Announce Pastor's School

The annual session of the Methodist Pastor's school is to be held at Southern college at Lakeland on April 2 to 27. The session will be devoted both to religious and shop instruction. Among the noted men of the church who will address the school are: Bishop Arthur Garth, of the Wisconsin area; Rev. Harold Byles, Baltimore; Rev. A. J. Watson, Clarksville, Tenn.; Rev. W. W. Thompson, Drew Seminary, Madison, N. J.; and Rev. Walter Towner, of the Board of Education.

## Peter Muller Dies After Long Illness

After an illness which struck him last July, Peter Muller, of Second street, S.W., passed away at his home Tuesday night and his death causes deep regret in a large circle of friends in Belle Glade where for many years he had been an active building contractor.

Mr. Muller came to Belle Glade when it was but a small village, and scattered over the present confines are many business structures and homes which his skill as a contractor brought into creation. He was active in the local Carpenters' union.

Mr. Muller, who was 63 years of age, is survived by the following: His wife, Jacoba; two sons, Arnold, of Belle Glade, and Peter C., of Lakeland; two daughters, Mrs. John Boyde of Mountville, Pa., and Miss Jean, at home.

Funeral services will be held at the Assembly Church of God at Westgate, Friday, at 2:30 o'clock, in charge of Rev. M. G. Clevision, followed by burial at Woodlawn cemetery in Miami.

Mr. Muller was a member of the Berry funeral home.

## Local Police Pick Up Negro For Old Georgia Murder

Local police officers early Thursday morning took into custody over in the Rader quarters, a negro by the name of Eddie Davis, on the charge of murder, for an act committed in Macon, Ga., back in 1937. Davis was arrested here December 16th, on a charge of assault and battery, but forfeited his bond of \$1000.

The department printer printed the prisoner at that time and a copy of the record was sent to the FBI at Washington for identification and classification, and return was received early Thursday morning with the above noted information and action.

When quizzed by the police, Davis vehemently protested that he had "never been in Georgia" in his life, but he is going to have some difficulty in getting around those tell-tale fingerprints in possession of state and national police departments.

Local police and the sheriff's office are in contact with the Macon officials, and expect fuller details of the crime, when an officer comes here to take Davis back to the scene of his alleged crime.

## Repairing Highway

The State Highway department now has a crew working on the middle section of the Belle Glade-Palokoe highway, eliminating some of the waves and chutes, which have been so troublesome to autoists.

## Miami Hurricanes Win Spectacular Game Over Holy Cross

By JOHN M. GLEDHILL I wish that I could live in Miami just one day in the year. I wish that I could see the game for the annual Orange Bowl football class, and that could be New Year's day, with the privilege of seeing the parade the night before. That would be glory and happiness for the balance of the year.

I was witnessing my first big college football game on New Year's, and it was one of the greatest thrills of more than fifty years of newspaper life for I had never seen such a game, and had never expected to be a guest at such an event. But I was there and that spectacular and unexpected ending play, which brought the Hurricanes a victory, brought to a close a most pleasant day.

Entering the spacious Bordin stadium and the stands, there was an ever changing Continued on page 6

## News-Print Goes Off Rationing List

During the war years, publishers of magazines and newspapers have been struggling along under ever decreasing quotas of paper allowances. A Happy New Year message to these people came from the OPA that on January 1 there would no longer be any rationing of news print. Publishers will be required to set aside three per cent of all news print purchased as a reserve pool for emergency purposes. Paper supplies for 1946 have been estimated at 98 per cent of the 1945 supply. More than two million tons of news print will be produced in Canada, New Zealand, the United States, and some imports from Norway and Sweden, in 1946.

## Will Build Cottages

Hubert Harris, who has seen Belle Glade grow into its present status, has plans ready and will soon start the erection of four frame cottages on East Avenue E, opposite the Collins residence. He plans to have these erected in a fancy setting of next arrangement. Mr. Harris, in his business affairs, has helped build up the citizenship of Belle Glade, for as a notary public he has married more than 600 couples.

## Firemen Build Office Shelter

Members of the local fire department have built a neat of stands, as a rest room and telephone booth, which will give the boys a place of shelter. The firemen are also busy painting the fire hydrants throughout the city.

## Dyke Islands Is Plan Of Owners New Organization

Everglades Board Asked To Form Benefit District For Action

At a meeting of owners of Dyke Islands called by the Resources Development Board Thursday night in Belle Glade, the Islands Improvement Association was organized with R. Y. Creech, president, Hugh Bratley, secretary, Fritz Stein, Dick LeFris and Clarence Aspey as directors.

The purpose of the organization is to insure official representation on matters common or peculiar to these owners. The immediate purpose is to set in motion action as far as possible to this end the Islands.

To this the Everglades Dyke Islands Association was asked by resolution to create a benefit district of the Islands which would allow bonding and administrative improvement to the sub-drainage districts. Engineers reports and design of a dyke 24 to 26 feet above sea level are being asked for along with probable costs and estimated additional taxes.

It is hoped that this item will be included in the hearing to be held by U. S. Engineers preparatory to a review of a revision of the Flood Control Committee of the National House.

More than 90 per cent of the acreage was represented at the meeting and a unanimity of opinion prevailed on the issues expected. No opposition was anticipated from the few absent.

The hope was expressed that the U. S. Engineers would lend sympathetic assistance in this plan to make the Island lands more secure from flood conditions and hurricane high waters.

## Norton Glee Club To Benefit Elementary School Library

Slick (Arnold or A. E. to mere acquaintances) Kirchman, financial chairman of the committee, announces that the appearance of Knight McGregor and his Norton Glee Club here on the night of Jan. 28, will be for the benefit of the library of the elementary grades of the school.

Last year the band benefitted several hundred dollars by the appearance of the same organization. For that year Slick and his Rotary Committee have picked the unscrupulous library of the elementary grades as the recipient of the proceeds.

This is the fourth consecutive year the singing club has appeared on the stage in Glades. It is a two story concrete edifice, which will have store units and a parking lot, and apartments on the upper floor.

## New Negrotown Block

The Calhoun business block over in negro town is a decided improvement for that block. It is a two story concrete edifice, which will have store units and a parking lot, and apartments on the upper floor.

## OBSERVATION

And Comment

By John M. Gledhill

Caught I. E. Will in a mood for discussing past events and incidents, he got onto the subject of fear, and he related to me his outstanding experiences in the war.

I was working rather late in my business place and had gotten up with intent to close up, and looked around and saw a tough, bearded man standing before me. I spoke to him, and he said if I had any Pierce Arrow car tires, and I told him I thought so. I hesitated to go back in the dark, side where the tires were kept, for I saw a holdup. I stooped down to read the tire trade name and saw that it was a "Pierce Arrow" tire. I was still more terrified for instead of one man there were eight men peering at me, just as terrifying. Well, Continued on page 8

## FORGET YESTERDAY

People persist in comparing the present era with that following the first World War. Actually there is very little to compare and the sooner this is realized, the sooner the country can approach problems as they exist today, particularly in the field of taxation and government debt. In the latter, the common of the president of a large life insurance company is significant:

"At the end of the first war, the federal debt had, it is true, risen to what then seemed staggering figures—from roughly one billion in 1916 to 25 billion in 1919. Large as this total was, it still was not of overpowering significance as compared with other forms of debt, for it represented less than one-fifth of the total of all forms of public and private debt of the country.

"By contrast, at the end of the Victory Drive in 1945 the federal debt will be approximately 280 billion. Accustomed as we are to huge figures, it is almost impossible to understand the full implications of this enormous federal debt. We are in the forest and cannot see over the trees—but we do know that government debt is now over twice as large as all other forms of debt combined, including state and municipal obligations.

"Here is another significant comparison: In 1919 the U. S. government debt was only about one-third the size of all the bonds, notes and mortgages of industry, farms and real estate. Today the federal debt, instead of being only one-third, is almost three times the size of all forms of private debt."

## With or Without OPFA

The limited price variety stores are the epitome of low-cost mass distribution. Doctor Paul H. Nyström, president of the Limited Price Variety Stores Association, in his annual report, states that: "More than \$1,500,000,000 worth of goods are distributed annually through the variety trade to the consuming public of this country. . . . The variety stores of this country serve the public not merely to the extent of these sales, but also as a highly effective influence through competition for more interesting, attractive and useful goods at low prices. It is not too much to say that the variety trade is one of the major means through which the masses of the people in this country are able to maintain their high standards of living."

Ironically, it is these very same low-cost merchandisers, chain and independent, who have been hit the hardest by the ramifications of OPFA price rulings. Such devices as the defunct highest price line limitation and the now notorious cost absorption scheme, to mention two, have been responsible for serious disruptions in low cost distribution. A staggering volume of goods has been driven off retailers' shelves by short-sighted OPFA treatment of established low cost distributors, apparently in complete disregard of the fact that such distributors are the strongest bulwark against inflation. Unless they can move goods to consumers on a mass scale, manufacturers and the OPFA might as well shut up shop and go home.

Without mass production and mass distribution, uncontrolled inflation will become almost a certainty—with or without OPFA.

## America's No. 1 Tax Evader

Preliminary investigation by government experts of tax-exempt organizations revealed an annual untaxed income of around \$3,000,000,000, and untaxed assets possibly exceeding \$15,000,000,000 in 1943. The figures are probably much higher now. Among the biggest tax leaks—not mentioned in the investigations—are the federal government's own tax-exempt business experiments, including its ventures into electric power production. Its tax-exempt electric projects are responsible for the elimination of many heavily-taxed private electric companies which have been unable to withstand privileged governmental competition.

Here are some of the facts as presented to a Congressional investigating committee: Taxes paid by privately owned electric utilities in five Northwest states exceed the total gross revenue of the Bonneville Power Administration which, as federal selling agent for both Grand Coulee and Bonneville, pays no taxes at all; four Northwest private utilities, owning property totaling \$225,539,615 in value, last year paid \$12,477,752 in local and federal taxes. Bonneville and Grand Coulee properties that cost the nation's taxpayers \$337,811,494, paid neither state, federal nor local taxes; Bonneville Power Administration is proposing to extend service into Idaho, Montana and Utah, where private utilities now pay between one and two million dollars in each of the three states in state and local taxes.

Total taxes paid by the 22 private utilities in the five states in 1944 amounted to \$27,497,000 of which more than \$16,000,000 were federal taxes, while in excess of \$11,000,000 were local and state taxes. In contrast, the entire revenue of the non-

taxpaying Bonneville Administration amounted to only \$20,893,363.

This is the secret of government-generated "cheap electricity"—tax dodging.

Representative Lyle Boren of Oklahoma, after hearing the above, observed: "Taxpayers in my district helped pay for those developments, but they get no benefit at all. It would seem that local and regional projects built at a cost to all the taxpayers of the nation should pay the federal government some return to compensate for the taxes that the rest of the country has had to pay out." The power socialists live in fear of such plain logic and will resort to the sheerest demagoguery to avoid facing the issue squarely.

## Hitler's Ghost

If comment in the press is any indication, this is still very much the coal age. An item from Cleveland states that in November coal boats on the Great Lakes were fighting against time and weather, as never before, to keep the Middle West warm and its industrial furnaces stoked this winter. Another item a few weeks ago reported that Europe faces utter chaos unless sufficient coal is found to alleviate the situation.

Not only our own country but the world is turning to the American coal industry as a drowning man turns to a life preserver, because only the American coal industry is capable of getting out more than six hundred million tons of the black gold every 365 days—without fail. But how much does the world or our own nation appreciate the productive ability of our industry? Our coal resources were discovered and developed by the enterprise of free citizens, yet most of the world is busy destroying individual enterprise and establishing in its place socialistic regimes not one white different that Hitler's. Here in our own land, coal mine operators are hard put to maintain independent management and the responsibilities and initiative that go with it. In spite of the records they have achieved and the demonstrated capacity of what we call private enterprise, they are under almost constant pressure from government and organized labor policies that disregard basic rights of private property and management.

The eventual result of these policies can only mean lowered coal production and inevitable hardship for the people, for such is always the way when pride of ownership and performance is forced to give way to clamoring groups who own nothing but an insatiable desire to get as much as possible for as little as possible.

## CINEMATIC CHATTER

By Malcolm M. Waz

My show at the Everglades this evening, Sunday-Monday will prove one of the best love stories you have seen screened in a long time. This one is "I'll Be Seeing You" . . . It's two stars are Ginger Rogers and Joseph Cotton, and they have been seen here. It is so full of featured players one can imagine to aid them in telling this story.

The story is timely, natural and very nostalgic, and I don't believe anything more tender has been seen here. It is so well written that it will suit the tastes of everyone . . . like, for instance, "Kings Row" . . . remember? Well, at any rate, you can be assured that you want to see this very delightful story on the screen of the Everglades Theatre.

Tuesday-Wednesday those were kids, Donald O'Connor and Peggy Ryan, with a host of the "rug cuttin'" gang aiding and abetting present "Patrick the Great." It is a great story, a great cast and a great . . . Oh, well, you see it and you'll add a comment or two.

On the same bill comes Paul Kelly and Harry Carey in "China's Little Devils" which is a story of the Chinese war that is told in a different manner than most war stories and will prove novel and entertaining.

Some of you will remember when Earl Carroll went to the penitentiary for a short term

Gunsmoke" with a good cast of Western gents and plenty of gunsmoke and fist fights to entertain the members of the Six Shooters Club.

See you at the movies—Mal

## Sunflowers Blooming

Thousands of rows of sunflowers planted in bean fields as windbreaks, are now gorgeous in their big yellow and black flowers, which makes a mighty pretty passing picture.

## Takes Steps To Provide Houses For Belle Glade

E. L. Borchardt, of the Borchardt Company, is taking steps to somewhat relieve the house shortage in Belle Glade, and in last week's issue of the Herald, make announcement of their plans.

This division of the company has entered into contract for the immediate delivery of 50 pre-fabricated houses from a reliable Texas firm, which will be erected on land owned by

Mr. Borchardt over in the Hol-loway Third addition, and will be offered for sale or rent.

The City Commission has granted the builders permit to erect four 16 x 32 units on their land.

## Social Happenings

Mr. and Mrs. K. B. MacCallister of St. Petersburg were the guests of Mr. and Mrs. J. B. Jones, Jr., over New Years, attending the Orange Bowl game in Miami with them.

Pvt. Tony Stein arrived here before Christmas to spend a furlough with Mrs. Stein.

Homer Adams visited his sister, Mrs. H. T. Holloway here this week. He has just returned from duty in the South Pacific and received his discharge from the Army Air Force on Christmas day.

Mr. and Mrs. Carl Conley and son Jimmy of Susanville, Calif., are visiting his mother, Mrs. E. D. Conley.

Mr. and Mrs. C. W. Patton and son Harold have returned from Lavana, Ga., and Anderson, S. C., where they visited relatives during the holidays. Mrs. Billie Murphy, formerly of Belle Glade, now residing in Pittsburgh, joined her brother and his family in Anderson.

Mr. and Mrs. Z. T. Ingram had as their guests during the holidays, their daughter and son-in-law, Sgt. and Mrs. Henry R. Morales of Tooele, Utah. They are both stationed at the Dugway Proving Grounds there and left here last Thursday for Atwood, Calif., to spend New Years with his parents. Mr. and Mrs. Ingram also had as their dinner guests Christmas day, Mr. and Mrs. Herbert Hackney and daughter Doris of Upper Darby, Pa., and West Palm Beach, and Mr. and Mrs. Milton E. Foster and son Michael of West Palm Beach.

Mrs. Dorothy Wright spent last week end in Orlando as the guest of Lt. and Mrs. J. H. Norfleet, Jr.

Mr. and Mrs. Nat Norfleet and children of Madison, Fla. and Lt. and Mrs. Joe H. Nor-

fleet, Jr., of Orlando, spent the holidays here as the guests of Mr. and Mrs. J. H. Norfleet and Mrs. Dorothy Wright.

J. Levine, of the Glades Jewellers, spent several days in Miami the past week, where he visited his son who is a member of a New York orchestra which is filling a night club date in that city.

H. A. Burns spent the holiday week visiting friends and relatives at his old home at Dublin, Ga.

Mr. and Mrs. Herbert Beck, Mrs. Dorothea Jones and family were New Years guests of Mr. and Mrs. Charles Beck in West Palm Beach.

Mr. and Mrs. Herbert D. Beck had as their recent dinner guests, Mr. and Mrs. Charles Beck, Mrs. Edmund Beck, Mr. and Mrs. Frank A. Huston, all of West Palm Beach, Harry Dawson of Lake Worth, and Mrs. Dorothea Jones and sons Donald and Bobbie.

Mr. and Mrs. Harry O. Petter were visitors in Ft. Myers last week.

Mr. and Mrs. B. G. Bowen, Jr., of Metter, Ga., were guests last week of Mr. and Mrs. Hubert Tillery. Mrs. Bowen is Mr. Tillery's sister.

Mrs. H. J. Hovington of Atlanta arrived Sunday to spend several months here as the guest of her daughter, Mrs. Luther Jones and family.

Mr. and Mrs. L. B. Cook had as their holiday guests, their son and daughter-in-law, Mr. and Mrs. Oswald Cook of Collegeville, Tenn., and Miss Miriam Hendlergill also of that city.

Lt. Roscoe Harris is spending a 30 day furlough with his mother, Mrs. Bettie W. Harris.

Clarence Kidder left Friday for Athens, Ga., to serve as best man at the wedding Sunday of his friend, John Buecheiter. He left there this week for Auburn, Ala., where he is enrolled as a student at the Alabama Polytechnic Institute.

Mr. and Mrs. John Buecheiter are arriving Saturday to spend the week end as the guests of Mr. and Mrs. R. W. Kidder and family. They are on their wedding trip and will leave here for Baltimore, Md., to make their home.

D. B. Mathis motored to Georgiana, Ala., to accompany his mother here for a visit.

Mr. and Mrs. George A. Taylor, Jr., of Macon, Ga., spent the holidays here as the guests of his parents, Mr. and Mrs. G. A. Taylor.

Mr. Robert Nelson of Kansas City, Mo., is enjoying a first visit to Florida, as a guest in the home of Mr. and Mrs. W. P. Risk.

**BRIDGES-BAKER**  
At the office of Notary Public Herbert J. Harris on Monday night, December 31st, Mrs. Viva Roker Bridges was united in marriage to W. M. Rogers, of Charlotte, N. C., in the presence of a few invited friends. The attendants were Mrs. Ruth J. Davis and Mr. Harold Young.

Mrs. Rogers came to Belle Glade several years ago from Tampa and has been associated with her sister, Mrs. Bee Weaver, at the Bridge Cafe.

The groom is a salesman in the employ of the Bulginie Company of Atlanta, and has been working on the new power line since last June.

Mr. and Mrs. Rogers will remain in Belle Glade for a short time, when they will take up their home at Starling, N. C.

**Inventory Time Here**  
Store and business inventory time has arrived and many of Belle Glade's establishments are now busy making such reports. Merchants report a very satisfactory business for the holidays, and shelves and counters show well depleted stocks.

### MISS MARY K. KNIGHT ANNOUNCES BETROTHAL

Mr. and Mrs. W. F. Knight announce the engagement of their daughter, Miss Mary Catharine Knight, to B. Q. Waddell, Jr., son of Mr. and Mrs. B. Q. Waddell. No date has been set for the wedding.

Miss Knight is a graduate of Belle Glade High School, class of 1945. She was secretary of the senior class and also the most popular girl, and served as cheer leader during her last three years of high school. She is now employed by the Florida East Coast Railway Company.

Mr. Waddell is also a graduate of the local high school, class of 1945, of which he was president, and a member of the football team. He is now a student at the Southern College of Optometry at Memphis, Tenn.

### Jake Boyd Back on Job

Jake Boyd, who served Palm Beach county as its engineer for 20 years, before entering war service, has returned to West Palm Beach, and on January 1, resumed his former position. It will seem natural to see Jake about the courthouse and out on his field assignments.

**BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY**  
INTERNATIONAL BIBLE BRADGATES

Question—... it was the perfect man, but—

Answer—But that is not enough. He was and is the divine Son of God. (John 2:16) In Hebrews 1:8 the Father calls His Son "God." That our Lord and Saviour is more than a perfect man, is shown in Ephesians 2:10: "God, who created all things by Jesus Christ."

Q.—Was't Abraham a Jew?  
A.—He was not. He was called in the Bible, Abraham's son was Isaac, and his son was Jacob. Jacob had twelve sons, whose descendants were called the Children of Israel. (Genesis 22:18) From Jacob, one of Jacob's sons, came the name Jew, applied to anyone belonging to the tribe or kingdom of Judah. (2 Kings 16:6; 20:26) Later the term was extended to include all of the Hebrew race who returned from the Captivity. Finally it comprehended all persons of that race throughout the world. (Ezra 2:5; Matthew 2:1)

Q.—Astronomy has proved that some of the stars are planets or worlds like ours. What are you going to do with the old Bible idea that this world is the only one?

A.—The Bible speaks of more than one world. Hebrews 1:12 says: "God, ... hath in these last days spoken unto us by His Son, whom He hath appointed heir of all things, by whom also He made the worlds." And, Hebrews 11:3: "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear."

Q.—Christians say that we must be born again to become God's children, but Malachi 2:10 says: "Have we not ALL one father? hath not one God created us?" A.—It is true that by unbelief all men are born again. (Acts 17:30-31) But spiritually, only those who are born again are the children of God. "But as many as received Him, to them gave He power to become the sons of God, even to them that believe on His name; which were born, not of blood, nor of the will of man, but of God." John 1:12-13

**Ed. Note:** Address your questions to the BIBLE QUESTION COLUMN, The Voice of Prophecy, Box 55, Los Angeles 51, Calif. Bible questions of general interest will be answered in this column as space permits.

### Gulf Stream Council Annual Meeting

Gunnar Berg, famous youth mimic and entertainer, will be guest speaker at the annual meeting of the Gulf Stream Council to be held in West Palm Beach Monday afternoon and night, Jan. 7. Dr. George J. Fisher, pioneer scout and National Scout Commissioner, will install the new officers to be elected during the evening.

Some 300 Cub and Scout leaders from Okaloosa, Indian River, Martin, St. Lucie and Palm Beach counties will attend the meeting to be held at the Army, starting at 3 p. m. Joe Freidheim, chairman of attendance for South Glades District, stated that several carloads of Scout and Cub leaders from Belle Glade, South Bay and Lake Harbor would take advantage of the conference.

Rev. O. R. Cull, veteran Scout leader from Lake Worth, will have charge of the afternoon session which will feature the entire Scout family and will help leaders become acquainted well known throughout the

with all phases of scouting. W. R. McClaffin will give a skit on Cubbing and Scouting. Capt. R. L. McCauley of Atlanta, a war veteran and director of Air Scouting for the Sixth Region, will speak on Senior Scouting. H. E. Spangler of West Palm Beach will illustrate how leaders can find program material. At 4:30 Cub and Scout leaders will hear Gunnar Berg following which he will lead them in a discussion. Senior Scout leaders will meet with Dr. J. H. Dewey and Capt. R. L. McCauley. The executive board will meet with president, Alf R. Nielsen.

The banquet will take place at 6:30 with Alf R. Nielsen as toastmaster. Officers for the new year will be elected, and installed by Dr. George J. Fisher, national Scout Commissioner who served as deputy Chief Scout Executive for over thirty years.

### Uptegrove Honored

Dewitt Uptegrove, who helped leaders become acquainted well known throughout the

Glades area, now County Registrar, has been honored by being installed as Vice-Grand of West Palm Beach lodge No. 88, Independent Order of Odd Fellows. Dewitt was very instrumental in the formation of Glades Lodge. He has also been named chairman of the committee for the formation of a youths' lodge in connection with his home lodge.

### Local Chapters Hold Installation Rites

Members of the Palokoe and Belle Glade Chapters, Order of Eastern Star, and the Everglades Lodge 211, F. and A. M., met Friday night in the Palokoe Masonic Temple for a joint installation of new officers. Mrs. Gertrude Granick of Lake Worth, OES grand officer, acted as installing officer. Other OES grand officers assisting in the installation were Mrs. Nancy Cox of Lake Worth, installing marshal; Mrs. Bess Lyons of Belle Glade, installing chaplain, and Mrs. Beulah George of Canal Point, installing organist. Frank L. Anderson of South Bay, past district deputy grand master, was installing officer for the Masons.

Inducted as new officers for the Palokoe OES Chapter were Esther LeFils, worthy matron; Dennis Friend, worthy patron; Eva Snyder, associate patron; W. W. Barrett, associate patron; Edna Mae Friend, secretary; Illa Howell, treasurer; Edna Barrett, chaplain; Alice Cherry, marshal; Dorothy Graham, organist; Jennie McKinstry, conductress; Jessie Barnes, associate conductress; Mabel Young Adams; Ruth Carpenter, Ruth; Mattie Lou Keen, Esther; Sadie Darwick, Martha; Grace Rosenberg, Electa; Juanita Culberson, Warder; and Ellsworth Keen, sentinel.

Installed for the Belle Glade OES Chapter were Ruby Bailey, worthy matron; Joe Cherry, worthy patron; Helen Morris, associate matron; Charles Maynard, secretary; Esther January, treasurer; Mary Schlechter, organist; Mary Schlechter, Adah; Dorothy Scarborough, Ruth; Abby Zump, Esther; Mary Anderson, Martha; Arthur Lee Maynard, Electa; Oretta Kirdman, warder; and Wendell Lyons, sentinel.

Installed for Everglades F. and A. M. Lodge 211 were Ellsworth Keen, worshipful master; D. W. Young, senior warden; S. R. Harrington, junior warden; S. J. Baggett, secretary; V. C. Ferguson, treasurer; the Rev. T. A. Ferguson, chaplain; Perry E. Hall, senior deacon; F. G. Gillis, junior deacon; and T. B. Wilson, tyler. Absent were D. W. Cunningham and E. A. Jensen, newly elected senior and junior stewards, who will be installed at a later date.

The worthy matron's pin was presented to Mrs. LeFils by Mrs. Alice Cherry, retiring worthy matron. Mrs. Cherry and Mrs. Bess Lyons received past matron's pins. Members of the Belle Glade OES Chapter were in charge of the serving of refreshments.

### MISSIONARY SOCIETY MEETING TUESDAY

The Missionary Society of the First Baptist Church will meet at the church Tuesday afternoon for a business meeting. Mrs. Vernon Jones will be in charge.

### Mrs. Allison Is Speaker At Club

"Trends in Art Styles" was the topic of a very interesting talk given by Mrs. R. V. Allison at the regular meeting of the Woman's Club Wednesday afternoon at the Club House. To illustrate her points, she exhibited prints of pictures painted in the various styles.

Mrs. Milton Campbell presided over the business session during which time it was voted to invite the County Federation of Woman's Clubs to meet here in March. Mrs. Herbert Beck, who is president of the county federation, will invite them at the next meeting to be held at Delray Beach.

Mrs. Thomas Breger gave a report on the Teen-Age party sponsored by the club, and announced that the next get-together would be Friday, January 11, with Mrs. R. W. Kidder, Mrs. E. A. McCabe and Mrs. Luther Jones serving on the refreshment committee.

Out of town guests were Mrs. R. W. Cannon of Charleston, S. C.; Mrs. F. A. Bradlock of Miami, and Mrs. H. J. Hovington of Atlanta.

### Prewitt Succeeds Bryant

Report is that W. E. Prewitt, who is supervisor of the agricultural department of the U. S. Sugar corporation at Clewiston, has been named to replace Bryant in the Eastern division at the Bryant plantation, so long held by the late Ed Bryant.

Will Jeremia, who has been the agricultural man there, as an assistant to the late Mr. Bryant, will continue in that capacity as a co-supervisor with Mr. Prewitt.

The sugar cane harvest is progressing rapidly and harvest and sugar production for the year will go into high record figures.

### College Students Are Guests Of Rotary Club

A dozen youngsters home from college for the holidays were guests of the Rotary Club at a regular meeting Friday.

After identifying themselves and their schools along with courses of study, several of the visitors gave impressions of their school work.

### Thrill Show Nets Funds For Clinic

Although too much Christmas celebration and lack of preparation caused the "thrill show" to be a bit flat, some good will came from the effort of returned GLs, because the proceeds will be turned over to the crippled children's clinic to be erected by the Legion on property being bought by them.

The bag of tricks publicized and described by notices from other performances proved to be most interesting, but several plans went askew and the full schedule did not materialize.

One interesting incident was brought about by the explosion of quite a bit of dynamite after everyone had left the field. Lack of wire had prevented the scheduled effects.

### First Fire Alarm of Year

The fire department boys got their first alarm of 1946 shortly before one o'clock Thursday, when the truck made a run to the Broward Grain Company region. A small blaze had been discovered in the engine room of a hydraulic derrick of the Murphy Construction Co. working on the new highway. However, the derrick crewman managed to put the blaze out prior to the arrival of the department, which had to make the long run to the packing house center. Little damage was done by the blaze.

Going and coming from Tallahassee to Miami, where he and his party enjoyed a New Year holiday and the city's gala entertainment, Governor Millard Caldwell and his party passed thru the Glades area. Going down they had dinner at South Bay and coming back on Wednesday, a like meal in Belle Glade.

### Governor Caldwell Passes Through Glades Area

The state gives the governor ample road protection, for in addition to his private conveyance, there were two motorcycle police ahead of his car, and three patrol cars behind.

Coming from South Bay to Palokoe, the governor had the pleasure (?) of riding over the badly conditioned highway, and got a first hand idea of the necessity of a new road (top).

Chief of Police Payne did the honors at South Bay to the chief magistrate and his party, and while there the governor hobnobbed with a number of the citizens who gathered to meet him.

### State Making Surveys

Surveying crews of the State Highway department have been working in the Six Mile Bend and South Bay sections, running lines, levels and location work, on proposed new highway work.

### TOO LATE TO CLASSIFY

FOR SALE—115 acres farm land with house for \$80 per acre. Acreal from Palm Beach road. C. A. Bandy, phone 70. 1-4-22

FOR RENT—Bedroom in private home. Directly behind Lutz' Pharmacy. 1-4-11

FOR SALE—Beautiful country built A-1 Cruiser. Home Trailer, 22 ft. overall. Will sell or trade. C. J. Lederer, Rader's Camp, Belle Glade. 1-4-24

### Distinguished Guest To Visit Local Lodge Of Odd Fellows

Arrangements have been made for the presence of Grand Past Patriarch Van Sickle, of Illinois, as the guest speaker at the fellowship meeting to be held in Belle Glade by the local Odd Fellows lodge, on January 10th, and West Palm Beach lodge.

Deputy Grand Master H. P. Dawson announces that another new Odd Fellow lodge will be instituted in Miami, at Dallas lodge hall, on Sunday, January 20th. This will give the Miami area eight lodges. The new lodge, as yet unnamed, will start out with 110 charter members, and an additional class of 50 or more candidates for initiation.

### Rawls Plans On A New Resident Subdivision

W. J. Rawls, who has a fine rural home on the site of the former historic Indian mound located southwest of the city, is planning on opening some of his acreage just south of his home, to a new residence allotment, to provide 27 home sites which will be sold with protecting reservation rights.

The site of the Rawls farm is an historic one, for it was at one time the location of an early Indian camp. This is the only spot in the Glades where sand, rock and shell soils have been found, and this is supposed to have been brought in from far-away sources by the Indians in boats, packing and by other means.

Southwest of the Rawls residence is found an ancient Indian burying ground, which Smithsonian Institute investigators claim is possibly 500 or more years old. Excavations by archaeological experts revealed in one of their searches that bodies had been buried seven deep, tier upon tier, covering considerable territory.

There was a move some years ago by the Department of the Interior to take over this old burying ground to preserve it for its historic value.

### Ave. A. Business Blocks

Construction on the new Seaborough, Bae-Mathis and Rader business blocks on West Avenue A is now progressing well toward the stage of completion, and it will not be long until a number of new and old business firms will be having permanent locations.

### Ready For Stucco

Contractor Don Hillier has completed the masonry work on the high school annex and will soon be ready to place the outside stucco finishing in place. Much of the interior work has been completed, so that hopes are entertained for the use of the building by the opening of the next semester.

## Glades Farm Land Prices Are Not Inflated

## Glades Farm Lands Are Not In the Hands of the Speculator

## Glades Farm Lands Are in The Hands of Users Largely

Approximately 200,000 acres have been purchased during the past two years with the announced purpose of development and use by persons financially able to carry thru plans.

No small part of these purchases have been by farmers acquainted with muck farming; capital, foreign and continental, has loosed its purse strings for agricultural expansion equal to that already in the Glades, and potentially greater.

Cattle Fattening — Ramie — Cattle Feed — Dairying — Sugar Cane — Rice — Dried Beans — Canning — Starch and other crops are among those things being planned.

Diversification is the keynote of the Glades' future success. Don't sell Glades farm lands short!

Glades farm lands won't make you rich if you buy it, sit down and wish. It will make you comfortably well off if time, energy and judgment are spent in its proper use—much less time and energy and judgment than in other agricultural areas anywhere.

## Housing Is an Acute Necessity for This Community

We have definite plans to supply this community with at least a half million dollars worth of residential housing during the year 1946.

We will have houses for all pocket-books, with a general price range from \$1,500 to \$9,000.

We will offer for those who want to live in the City, homes of varying degree of desirability and location.

For those who want to live on one acre, we will offer homes on sites of this size.

For those who want five- to ten-acre tracts—and we won't tell you that a living can be made on five or ten acres—we will have something attractive for you.

Incidentally, we intend to make "dirts and dravy" out of this, but we will keep the prices as near normal as we possibly can.

Mary Lou and Florence, and Grady L. Miller of West Palm Beach, visited relatives in South Bay Friday.

Mr. and Mrs. W. M. Wilder of Lake Harbor are in Macon, Ga., on business.

Mr. and Mrs. W. C. Allen and daughter, Jane, spent the Christmas holiday in Ft. Pierce with their daughter and family. Mr. and Mrs. Floyd Abstein and daughter Judy.

Mr. and Mrs. Bill Baldwin of Franklin, N. C., who are spending the winter in Belle Glade, visited Mr. and Mrs. J. H. Hodges and family during the holidays.

Mrs. Thelma Burdon of Ashburn, N. C., and Mrs. Ingegn Maddon and daughter Wanda of Eastman, Ga., spent Christmas holidays with their father, George Hudson and family.

Mrs. F. W. Mutchler, Marian, Carolyn and Jackie Cutcher, Elsie Ruth Harrell, Carroll Warren, Herbert Priest, Leland Hardy and Carol Best spent the day Wednesday at Fishing Creek.

Mr. and Mrs. L. O. Ratley have as their house guests Warrant Officer and Mrs. L. O. (Jack) Ratley Jr. and son Lonnie, recently of Sacramento, Calif.; Mr. and Mrs. Charles Lashley and daughter Gwendolyn of Tampa; ARN 3-2 Eugene E. Hardy and wife, Jacksonville.

Warrant Officer Jack Ratley and family visited his sister and husband, Sgt. and Mrs. Edwin E. Dorsey, his grandfather, W. J. Ming, and other relatives enroute from California to Florida.

## 'Too Late To Classify'

By Russell Kay  
For many years I have made a practice of writing my own Christmas cards. Somehow, it seems to me that the average card, found in the shops, fails to tell the story that should be told. My card list has grown over the years until it now runs well over a thousand. It is quite a chore to address the envelopes and prepare them for mailing, but I get a lot of personal pleasure and satisfaction from doing this. As I address each one I visualize the person to whom it is being sent and in that way am brought closer to them.

This Christmas my card took the form of a verse entitled "I We Understand" intended as a timely Christmas message to all who seek the answer to permanent Peace.

It read as follows:  
**IF WE UNDERSTOOD**  
"Peace on earth, goodwill toward men"  
The Christmas bells ring out again  
Bringing their message of hope and cheer,  
For you and me and the world to hear.  
If we'd only listen and only heed,  
Turning our thoughts to others needs,  
We would find that Peace in

a joyous life,  
Free from bitterness, greed and strife.  
Though the path be rough and the way be dark,  
In the hearts of men there lives a spark.  
That some term God and some term Love,  
A Christmas gift from the Source Above.

Linking us all, if we Understood,  
In one great worldwide Brotherhood.

"Goodwill toward men" is the magic key  
To the Peace on Earth we hope to see.  
One never knows how far such seeds of thought may go or what reaction they may have on the reader for they seldom bring anything in a way of a direct response. This week however, I was delighted to receive from my good friend Lee L. Baker of Clearwater, a letter that expressed his personal reaction, together with his revised version of my message as expressed in the verse above.

He writes: "I studied your card. I liked the idea of peace and white, decorated only with the silver star. No doubt it bears a good message. However, I wonder if you were careless in the implication that an ideal social system can be built out of presently available man material. There is the thought that sometimes an inward look is necessary before society as such may be helped by anyone. I am sending you my rewrite of your verses. My verse is bad, yours is good. Your theme is over-sweet, mine may be over-bitter." His verse follows:

"Peace on earth to men of good will,  
Peace to the stricken we failed to kill.  
The bells ring out and bid me heed  
A brother's distress and a neighbor's need.  
I hear much talk about Brotherhood  
In an ideal world, built only of good.  
But as part of such world, I must confess  
I would make of the structure a terrible mess.  
I'm deficient in patience, in self-control,  
In courage of heart and in depth of soul.  
I am not self-forgetful nor kind enough.  
I am lacking in discipline, poise and stuff.  
The qualities needed are not in me.  
That the ideal world of peace may be.  
Yet beginnings are here. Men must become able.  
Christmas itself began in a stable."

The old expression "more truth than poetry" might be applied to Lee's message. He was dealing with concrete facts while I was indulging in propaganda. I do not consider his verse bitter for it is true that peace we all seek, lies buried in the hearts of men. If as individuals we would each analyze our own failures and misgivings as he has done and strive to overcome them, results would be amazing. With this viewpoint in view I pass on Lee Baker's verse as being of far greater value in solving our problems than was mine, which simply spotlighted the goal but did not chart the road.

## LIONS CLUB

(Continued from page one)  
Health Clinic, \$100; \$100 to the Athletic Field fund; \$50 to the band fund; \$400 to the Recreational Council; \$25 for membership in the Resource Committee organization; \$100 to the Salvation Army for Christmas charity baskets.  
The club honored the combined Belle Glade-Palmetto foot ball squads at a banquet, sponsored a stage show, assisted in the Allied Nations old clothing drive, sponsored the Junior Recreational organization, built and paid for the football field ticket booth, and worked in the Seventh War Loan drive, and donated to funds used in saving the eyeglass of a young lad, this being an individual gift of the membership.  
The club was honored with two piano selections by Robert Nelson, a nephew of President W. P. Risk, of Kansas City who is a visitor in the Risk home. Chairman Earwood appointed the following Lions to have charge of the program for the coming six weeks: January 9, Davidson; 1, Puckett; 23, Harris; 30th, installation ceremonies for new members; February 6, McDonald; 13, Hodges.  
The sale catalog for the January 18 Brahma sale at Ocala comes off the press this week with 90 head offered by 21 consignors. Included are 20 bulls and 15 females described as "coming 2<sup>nd</sup> or older, as well as 17 bull calves and eight heifers

calves. The offering is considerably more on the mature side this year, and should be uniformly higher quality than last year's record sale. A. C. McNair, Umattilla, will cry the sale and T. J. Durranne, Brighton, will comment on pedigrees.

## W.S.C.S. CONDUCT CHRISTMAS PROGRAM

The Women's Society of Christian Service recently held their Christmas program at the Methodist church with Mrs. Hugh J. Bratley in charge of the program and devotion. An organ solo was given by Miss Margaret Haines, and carols were sung by the group. Mrs. James A. Bell gave a review of the book "Yuletide in Ancient Times." The business session was presided over by Mrs. Frank Morris during which time final plans were made for the dinner to be served the members of the glee club. Mrs. Jay O. Jamison was appointed chairman of this committee. At the close of the meeting refreshments were served by Mrs. George Taylor and Miss Eva Sue Taylor.

Mrs. E. W. Houley was welcomed as a new member. Others attending were Mrs. J. M. Wallis, Mrs. Harry Wallis, Mrs. E. W. Freeland, Mrs. Ralph Freeman, Mrs. H. L. Ha-

ney, Mrs. R. W. Kidder, Mrs. N. T. Taylor, Mrs. C. A. Thompson, Mrs. Mark Stallard, Mrs. Herbert Beck, Mrs. Thomas Breger, Mrs. F. D. Steinhilber, Mrs. C. P. Springer, Mrs. A. L. Wallis, and Mrs. F. E. Hollingsworth.

Announcement that an installation of officers will be held at the next meeting.

## Schools Reopen

The public schools opened on Wednesday morning, closing a holiday vacation. All but two of the teachers reported back to work, and these were detained by illness. Prof. Hobson reports that there will be some increase in enrollment but how much will not be known until the end of the week, but the number will likely reach the 800 mark.

## Masonic Installation

Belle Glade Lodge No. 173, F. and A. M., will meet next Tuesday night with installation of officers as its main business of the evening, when Ralph Freeman will succeed Lou Besser as Worshipful Master. A social session will follow the lodge meeting at which a barbecue feed will be enjoyed.

## Another New Beginning

Today as we stand on the threshold of 1946, the memory of many other New Year's occasions gives way to firmer, sterner resolutions. We are just finishing a year that will stand out in memory as long as history is read. Ahead lies the first of many years that will provide opportunity for broadness of thought and largeness of action.

In preparing this current series of ads commemorating Anthony's Golden Anniversary, we've turned back thousands of pages of old newspaper files which have recorded the history of the Palm Beaches, of the nation, and of the world. Looking back, our pride in past accomplishments of our community, doesn't blind us to the fact that many things which should have been done were not . . . and many things which were done could have been done better.

We hope we always try to do things better. It's the American Way. Come what may, in this changing world, human values will remain the same and no substitute will be found for the age-old virtues of integrity of purpose and honest effort. These we promised you in 1895, and these we promise you in 1946.

We want to express our appreciation for your understanding of the wartime curtailments of Anthony's services. Your generous understanding has helped us in many ways to make it possible for us to meet your increased needs during the past year and has given us the encouraging knowledge that we can continue to count on your cooperation.

May the New Year bring you a great measure of happiness and may it bring to all the world a lasting peace!

**THE OLD JUDGE SAYS...**

HARRY: "I don't know what they'll do with it, Judge, but my corn and poultry have been better since I started to use this dried grain in their ration."

OLD JUDGE: "You're about the tenth one who has told me that, Harry. How do you account for it?"

HARRY: "The by-product recovered from gums used by distillers is very high in vitamin and protein content. It's the best feed supplement we can get to balance the ration we feed our dairy cows, livestock and poultry. Mixed with original grain, these distillers' dried grains have a much greater feeding value than the original grain has."

OLD JUDGE: "Have you trouble getting it you need?"

HARRY: "Yes, at times, even though the distillers produce 1,200,000,000 pounds of it for the year and I have to buy it in a position to produce a lot more next year."

OLD JUDGE: "Then I guess nobody can tell you grain is wasted in distilling."

HARRY: "Not me, Judge... I know."

**Local Insurance Man Gains High Honor With His Company**

One of our home town boys is making quite a record for himself as an insurance man, and that is H. H. (Bo) Pugh who has just been notified by the Gulf Life Insurance Company of Jacksonville, that he has been honored with membership in the President's club of that organization, the highest honor obtainable by an agent underwriter.

Bo has been sent a lapel pin and will also be a guest of the company at its annual agents' meeting to be held later in the year. In the three years he has trebled his debit account, and last year wrote \$108,000 in ordinary insurance, and he stands 19th among all the company's agents for business produced in 1945.

Mr. Pugh is an active member of the Lions club and the Odd Fellows Lodge, and is quite a popular young man about town.

**Odd Fellows To Hold Open House January 10th**

Glades Lodge of Odd Fellows at its last session, made arrangements for an open house session to be held at the Carpenters' Hall on Thursday night, January 10th, with May George Taylor as chairman.

## MIAMI HURRICANES

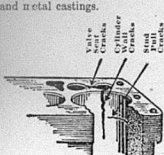

(Continued from page one) scene of action, colorful in the extreme, as the people filled in mass to their seats, numbering 35,407 paid admissions, and a crowd totaling 38,000, a record-breaker.

Uniformed school bands and drum corps, drill teams, and pagentry, swept over the field from goal line to goal line, in fanciful formations, as the Bowl Queen and her attendants were presented to the massive audience, a most beautiful spectacle. But it was the opening mass band field formation in the presentation of the Colors that got my eye, as the national anthem was played, and we all stood at attention, proud to be in the Crusaders of Holy Cross University of Worcester, Mass., against the hustling Hur-

## Likens Dimes Drive to War on Axis

Chief of Staff Dwight D. Eisenhower endorses the March of Dimes conducted January 14-31 by the National Foundation for Infantile Paralysis as a "fighting tribute" to the memory of Franklin D. Roosevelt. Said General of the Army Eisenhower: "There will be no question of the response from every American who understands the urgency of the appeal. In our country infantile paralysis remains as one of the scourges that we must strive to eliminate, and I am certain that the fighting services and all veterans and civilians will unite in helping to defeat this enemy just as they did in gaining the victory over the Axis in the field."

From Miami University, who came into the field to clash in this annual New Year's day classic, and clash they did in a most interesting game. It was star against star, line against line and backfield against backfield, with mass plays injected, and all this play produced a contest which no fan could deny, unless it be the Holy Cross fans.

After both teams had scored touchdowns in the second quarter, it looked up to the very last play as if the first game in a bowl game was to be recorded, but then the surprise came, alike to both teams and the awed spectators. Things happened so fast and unexpectedly on that play, and with such a stunning climax, that it just hardly could be true, the Cinderella team had won.

The Crusaders were on the Hurricanes' 23 yard line, when the big Holy Cross player, De Filippi, drew back and threw a line pass to Dieckman, who touched and juggled the ball by an upfield which sent it plump into "Al" Hudson's upstretched arms. When Hudson found he had the ball, he set off in a jack rabbit sprint for that Holy Cross goal some 80 yards away, while he crossed and caught his team a deserved and hoped for victory. He evaded the entire Crusader team, and by some quick foot work evaded the safety man. It was a lucky luck play, for had Dieckman completed the play, in all probability he would have scored for the Crusaders.

Young Hudson, a former Miami Edison High School player, saved the game for Miami, saved the prestige of the Orange Bowl, and likewise the decision of the wisdom of placing the "Cane" in the bowl game.

Hundreds of Glades fans were in attendance at the big game.

**Closes Radio Shop**

H. J. Highsmith, who has operated a radio repair shop on Avenue A for the past nine months, is closing his place of business, and will go to Clewiston, where he will be employed by the United States Sugar company, as an electrician. Inability to secure radio parts caused him to make the shift, but when the need for radios are on the market and repair parts are available he plans to go back into that line of business.

**Tax Collections Increase**

Stetson Sproull, county tax collector, reports that the payment of taxes in the county have broken records this year. So far \$2,592,746 have been collected, or \$330,000 more than at the same period last year. The county retains 50 per cent of the beer and wine license money, one-third of the occupational license collections, and one-fourth of the intangible property collections.

really over. We returned to Okinawa and then went to Tokyo. I just met the new Navy in Yokohama, but we were in Yokosuka and I couldn't catch a train because of a typhoon warning. We are back in Kinsu after riding out the tail of the typhoon that hit Okinawa.

"I guess it is as Admiral Sturges said, 'now that the war is over, minecraft's war has just started.' Luke, I wonder if you could give me the address of a pal I have lost track of. It is Calvin Mims. I would like very much to have his address."

Clewiston, Fla. Jan. 4. (FNS)—With the current sugar harvest now being ahead of schedule, Clarence R. Biting, president of the United States Sugar Corp., today reported a bright outlook for sugar production in the Everglades in 1946.

Biting said recent cold maps that have penetrated Florida have caused no consequential damage to cane, except to very young plants, and have proved beneficial in raising the sucrose content of maturing cane.

Indications are that the crop will be the best since the wartime harvests, providing enough sugar for a month's supply for every person in the nation. Both the labor situation and the condition of the fields are better than they have been for some years. Company plantations and independent producers are now harvesting and sending in some fine quality cane for processing, and the sugar house, largest in the nation, has been exceeding its budgeted cane.

## MODERN FARM

Continued from page 1

months when the northern states are in a state of cold, ice and snow, and the nation looks largely to this region for its supply of green vegetables shipped by rail, truck and ere long by plane to all the markets of the central and eastern states.

Thirty-two types of vegetables are grown and shipped in commercial quantities, the main ones being string beans, tomatoes, celery, egg plant, lettuce, chinese lettuce, radishes, ascorbic, endive and lima beans.

It takes big investments to carry on the farming, and growing house projects, and thousands of negro laborers are needed to harvest the crops, which run for around seven months of the calendar year. Last year more than 22 million of produce was raised alone in Palm Beach county, the banner produce county of Florida.

In this field the manufacturers of all types of farm and drainage machinery, find ready sale for their wares, including drag lines, tractors, plows, potato diggers, trucks, airplanes for dusting, spraying machines, disc harrows, and some harvesting machines for certain crops.

However, owing to the softness of the muck soil, there is not a farm machine, as built in the factories, but what has to have changes and modifications made, so they can be effectively and profitably used, and this naturally gives machine shops an abundance of new work in producing parts needed for the remodeling process.

## FUNGICIDES

Continued from page one

available now, and Dr. Townsend recommends its use at the rate of two quarts in 100 gallons of water. One pound of zinc sulphate and one-half pound of hydrated lime should be added to each 100 gallons of spray.

Fernate is available as a real black fluffy powder, used at the rate of one and one-half to two pounds in 100 gallons of water. It is compatible with nutritional supplements and insecticides which are sometimes added to fungicides.

Zerlatt, a zinc salt of the same series as dithane and Fernate, is a white powder which

**THE LAST DAY**  
FOR MEN NOW IN THE ARMY TO  
RETAIN THEIR PRESENT GRADES  
BY REENLISTING...

Men now in the Army who reenlist before February 1 will be reenlisted in their present grade. Men honorably discharged can reenlist within 20 days after discharge in the grade they held at the time of discharge, provided they reenlist before February 1, 1946.

There's a long list of attractive reenlistment privileges in the new Armed Forces Voluntary Recruitment Act of 1945. The ability to keep your present grade is only one of them, but this privilege expires on January 31.

There are plenty of other reasons why many thousands of men have enlisted, and more thousands are enlisting every day. You'll certainly want to know all of the opportunities open to you. If you'll read them carefully, you'll know why a job in the new Peacetime Regular Army is being regarded today as "The Best Job in the World."

OBSERVATIONS

(Continued from page one)  
The men proved to be like David baseball players from Benton Harbor, Mich., traveling through in two big cars, and needed tires. They got the tires. I got the money, but sure was glad the experience was safely over.

Our Yule holidays have come and gone, and personally I found both dates as delightful as any I have experienced here. I came from Ohio 12 years ago. I guess some of the Christmas joy came because I was liberally reminded by family and friends and for once was able to reciprocate to my friends in St. Cloud for their many past favors to me. In the family, we all enjoyed that fine turkey which came in my stocking, as a gift from my employer, the first bird appearing in my stocking in eight years, and the good wife proved she had not forgotten all her culinary skill when she placed the bird on the table.

It all materializes that is booked for Belle Glade in 1946, then we can call it a successful year. The city has an imposing expansion program; building projects will require thousands of dollars for new homes and structures; farming projects will not stand still by any means; sugar and rattle cultivation is booked for big expansion and improved processing methods; we will have a new \$200,000 roadway; the packing house center; and over in the new terminal division we can expect additional industrial growth in the way of new ventures and buildings to house.

them, among those booked being a large and extensive bulk station for the Sinclair Oil Company, for which St. Cloud is the distributor, and a cement block plant, to be operated by the Creech syndicate.

Our next public duty will be the purchase of the customary annual automobile tags for our cars and trucks and other motor equipment. We pay into the state and federal government many dollars in the year for a gasoline tax, and that is only a tax from which we do receive ample returns. In our roadway system, with huge sums of state and federal monies allocated to road and bridge work, on main and farm roads, Florida is some day going to possess one of the finest highway systems to be found in any state of the Union. Our Board of County Commissioners will plan the State Highway Department for a number of improvements in the Glades, the main project, the rebuilding of the Belle Glade Pahokee to Canal Point highway in a manner similar to which Route 26 to Miami was built.

While our Golden Rams basketball team has not yet gotten into playing action, the boys who will make up the team are working out at the gym, and appearances indicate that we will have a good, strong quint to represent the school on the courts. The schedule has not yet been released by Coach Cooke.

Women inherently are against dirt and dust, and that applied to Mrs. Albert Potter, who is now the local manager of the Everglades theater. So with a force of people armed with soap, water, brushes and cleaning powder, and elbow grease, she has had the theater cleaned up in grand condition, and it now appears spick and span.

As one drives past Wright field at West Palm Beach and sees those giant planes at rest, they can well wonder what will be their disposal. The writer is informed that most of them are stripped of their engines, steering gear and instruments, and the balance of the machines are marked for the junk yard. Cost of machines during the war was never curtailed by the government, but salvage from the planes will be comparatively small.

**BIBLE QUESTIONS ANSWERED BY THE VOICE OF PROPHECY INTERNATIONAL BIBLE BROADCASTERS**

Question—What is a "creed"?  
Answer—It is usually defined as a formal statement of doctrine.  
Q—Can you tell us what the "sign of Jonas" is as mentioned in Luke 11:29-32?  
A—It was Christ's resurrection from the dead, which had been symbolized by Jonah's deliverance from the belly of the great fish. Matthew 12:40.  
Q—Isn't it clear that man has evolved from lower animals?  
A—It is not clear. The "missing link" is still missing. Why not take God's Word at face value, "So God created man in His own image, in the image of God created He him; male and female created He them." Genesis 1:27.  
Q—Were Sodom and Gomorrah destroyed by an ordinary volcanic eruption?  
A—Not if we believe the Bible. Their destruction had been foretold and was a warning to be coming. This was the words of the angels were: "For we will destroy this place, because the cry of them is waxen great before the face of the Lord; and the Lord hath sent us to destroy it. . . . And the Lord rained upon Sodom and upon Gomorrah brimstone and fire from heaven, and he overthrew them." Genesis 19:13,24.  
Q—Why was there no heaven or earth in the Pentateuch bread eaten when Israel left Egypt?  
A—Leaven was a symbol of corruption, and the children of Israel had to be clean before God. Paul uses the same figure in 1 Cor. 5:7-8: "Purge out therefore the old leaven, that ye may be a new lump, as ye are unleavened. For even Christ, our Passover is sacrificed for us; therefore let us keep the feast, not with old leaven, neither with the leaven of malice and wickedness; but with the unleavened bread of sincerity and truth."  
Q—Haven't research proved the origin of life to be contrary to the Bible record?  
A—Prof. George Darwin, president of the British Association and son of the renowned Charles Darwin, said at a public meeting of the Association on August 14, 1905: "The mystery of life remains as impenetrable as ever." As far as science is concerned, this statement still holds. The Bible tells that God created the living from the non-living. Read all of the first chapter of Genesis; also Psalm 96:1: "For with Thee light shall see light."

Down here in our Herald printing office, the editorial and mechanical departments meet. There are two really exciting working there, and both are called by that appellation, and it gets confusing. Clarence is the boss who gives the action calls in the ranch, and now he has this code. When he wants to write, he calls out "I-ed-g-e" with a loud voice with much incentive on it, but when he calls the other judge, it is with a call as low and smooth as a spring ephyr.

Was wheeling away into a contented manner toward the slum, humming a song to myself, when suddenly there was an unexpected bass note developed that sent me into a safety spot along the highway. I got out and saw that one of those guaranteed (7) reappeared tires had decided that its days of usefulness were over and had collapsed on my hand, well, it looked like the Judge was due for an all night vigil at a safety spot. A driver stopped and agreed to carry a note to the Ford people at St. Cloud sixty miles away, to bring me a tire wheel. Five hours elapsed before that welcome fellow arrived.

Now some persons say that belonging to a fraternal order is of no benefit. Let us see, as applied in this case. The man who carried the note, the one who brought me the wheel, the man who issued me a certificate to get a new tire and tube, the man who sold and collected for the tire, were all brother Odd Fellows. Odd Fellows are trained to extend such courtesies. The moral of this story is: Don't take chances on making long trips unless you have a spare tire, and be sure you have some friends to help you out in time of need and distress.

We owe our good lawyer friend Herbert Beck, an abject apology, for not attaching his name to the list of city officers in connection with the City Commissioner's New Year Message, which came about purely through an oversight. Without the services of such a legal officer, who must give the Commission its legal advice, prepare legal papers, ordinances, resolutions and write important letters, that body indeed would be in a bad way, and in hot water at times. If there is any

one of the city employees who earns his salary stipend it is the city solicitor.

Northern people are sure seeing Florida this year. They are coming by single cars, in house cars and in bunched convoys. And how they are hitting the provender line, and the hotel accommodations.

Florida is again taking a front seat in its citrus and farm production, as the 1945-46 crops are proving bumper ones. Most every citrus and farm commodity has given increased production, and even the some prices have been a bit low, yet the volume has taken up the slump, and new records are reported. The citrus crop delivered at packing house doors will yield the amazing sum of \$107,320 million, or 5 million more than last year; field crops will yield another near 44 million, without winter vegetables being included. Some of the estimates as given by State Farm sources are corn \$11,622,000; potatoes, \$2,412,750; sweet potatoes, \$2,534,400; hay \$1,134,000; peanuts, \$5,724,000; tobacco, \$9,240,000; cotton, \$872,000; cotton seed, \$150,000; winter vegetables, \$35,000,000 (estimated.)
